## Terms & Conditions:

**To Open An Account:** Please forward 3 trade references and 1 bank reference to our credit department. Please allow 2 weeks for thorough credit checking on new accounts. Orders can be shipped C.O.D. until credit is established.

**New Accounts:** All orders placed on new accounts require prepayment by either Check, Cashier's Check, Money Order, Visa or Mastercard. New Accounts that ship C.O.D. will be sent C.O.D. Cash Only. **Terms:** Terms are Net 30 Days after credit is established. A service charge of 1-1/2% per month will be assessed on all past due accounts. Habitual Past Due Accounts will revert to C.O.D. - Any customer who issues an insufficient funds check will automatically be placed on *Prepayment Only* status.

## Please Read Before Placing Your Order:

1. Give your complete billing address, shipping address, contact person, purchase order, telephone number and fax number.
2. Order by catalog number, state description, quantity, size, etc.
3. **Orders that have custom engraving must have spelling faxed in or emailed in to ensure accuracy.**
4. Since cut pieces, custom made & special orders cannot be returned, please fax or email the following:
  - a. verify accuracy of drawings
  - b. supply camera ready artwork
  - c. note any special instructions (i.e. hole size, placement, radius of corners, etc.)
5. Bell Company pays for delivery within the Continental United States by U.P.S. ground service only on all orders over \$ 50.00 that are paid for in advance. This does not include packages over 70 lbs.
6. Prior authorization must be obtained for returned items which will be subject to a 20% restocking charge. You have 10 days to return merchandise from the date authorization was received in order to receive a credit.
7. Any claims for shortage or damage must be made within 10 days.
8. Minimum orders are \$ 20.00 and a \$ 2.00 handling charge will be added to any order under this amount.
9. Since Freight Terms are F.O.B. shipping point (Trussville, AL), all freight and handling charges will be added to all shipments, except for those that are prepaid over \$ 100.00.
10. A \$ 20.00 charge will be made on all returned checks and the account will be put on a "C.O.D. Cash" rating.
11. All prices in this catalog are subject to change without notice.
12. **Any customer wishing to use UPS Consignee Billing and/or Third Party Billing will be charged \$ 10.00 per order shipped.**
13. Limited Warranty & Disclaimer: Claims concerning any defect must be made in writing to Bell Company, Inc. ("Seller") and sent to Seller no later than thirty days from date of invoice. **The requirement of written notice cannot be waived.** No warranties are made by Seller except as may be contained in an invoice respecting a particular item. The limited warranty that may be expressed in any such invoice is exclusive and in lieu of any implied warranty of merchantability, fitness for a particular purpose, or other warranty, express or implied, all of which are waived by Buyer. The liability of Seller for breach of any warranty is limited to the repair or replacement of goods on which liability is based. Seller shall not be liable for indirect, incidental or consequential damages, including but not being limited to loss of use, revenue or profit. There are no warranties that extend beyond the description of the goods contained in this catalog and only such warranties are given as are expressly set out in the invoice for such goods. Any verbal statements or understandings are merged into any purchase order or invoice submitted and accepted by Buyer.

## Belco Manual Engraving Machines

### PM-5 \$ 2,795.00

Complete - Ready To Engrave

The PM-5 is an extremely versatile engraving machine with various optional attachments to work either small, large, round or awkward shaped objects.

The height of the vise can be adjusted easily by loosening a clamping screw enabling the machine to work with objects of various sizes & shapes.

The standard accessory unit of "Free Jaws" is the key to the high efficiency of this multi-use machine, allowing the engraving of cubical or odd-shaped objects.

Standard accessories: Same as the PM-3 on page 15 with these substitutions: Vise, 7" opening, 360 degree rotation with "Free Jaws" - 4" elevation system.

Approximate Shipping Weight: 100 lbs.

### PM-5CA \$ 3,295.00

Complete - Ready To Engrave

The PM-5CA is a medium size engraver used for engraving objects up to 12-1/2". This machine will accept high and bulky objects since the vise is deeper than most.

This universal work-holding vise allows the clamping and engraving of large trophy cups & mugs up to 9" in diameter. The machine is fitted with a scissors jack which enables the operator to move the vise up and down, backward & forward, as well as tilting it.

Standard accessories: Same as PM-3 on page 15 with these substitutions: Vise, 12-1/2" opening, self centering, 6" depth, 5" elevation system, scissors jack to raise vise, Universal cup cone & back plate support.

Approximate Shipping Weight: 150 lbs.

### EGX-30 COMPUTERIZED ENGRAVER \$ 2,995.00

Computer Not Included  
Requires Windows 95 or higher

Good Entry Level Computerized Engraving Machine

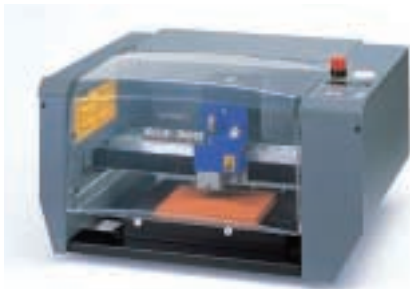

The EGX-30 is a simple-to-use 2 axis, desktop engraving machine. It works via a standard parallel or serial connection to your PC. The EGX-30 uses industry standard 1/8" diameter tools for engraving plastic and other soft materials, as well as scribing coated brass. With its small overall footprint, the EGX-30 can be used on any desktop. It is quiet enough to be used in any office environment.

Accessories: Dr. Engrave Software, EGX-30 Driver for Windows® 95,98, NT, XP, Power Cord, Cutting Tool, Engraving Tool Holder, Dust Collector Hose & Duct, Diamond Scribe Adapter, Adhesive Sheet for Securing Material & User's Manual.

Table Size: 12" x 8-1/16" Maximum Working Area: 12" x 8-1/16" Wt. 34.2 lbs.

Optional EngraveLab Software \$ 1,195.00 is shown on next page.  
Optional Vacuum Chip Removal System \$ 699.99

## Belco Desktop Computer Engraver EGX-300 by Roland

Model EGX-300

Vacuum Chip Removal Syst.

A desktop engraver that produces professionally finished signage, nameplates, badges and more!

Comes with advanced engraving / modeling software.

**EGX-300 Includes Dr. Engrave Software**

**\$ 4,995.00 Computer Not Included**

Optional EngraveLab Software \$ 1,195.00

Optional Vacuum Chip Removal System \$ 699.99

- **Uses a wide variety of materials** - The work area of the EGX-300 is 9" (d) x 12" (w). Since the machine also supports three dimensional engraving capability in the Z-axis, it can be used for relief applications. Applicable materials include light metals such as brass and aluminum as well as plastics and acrylics.
- **The new EGX-300 desktop engraver is an open architecture design** - Improved specification provides greater productivity, superior performance and reliability, high level of connectivity and more. It is specially designed to meet the demands of the professional engraver and provides a cost effective solution for 3-D engraving.
- **Compatible with industry standards** - Included with the EGX-300 are two sizes of tool holders that accommodate standard tool diameters widely used in the industry. For even greater versatility, an optional center vise or commonly available jigs can be used for holding work pieces in place.
- **Clean and Safe** - The EGX-300 armed with the wider vacuum hose easily collects the dust and debris during operation. We have even added shielding to the exposed drive rails to protect them from any remaining airborne dust.
- **Data Buffer** - The EGX-300 comes with a standard 1MB data buffer for replot capabilities.

### Self Centering Vice

A self centering vice for holding nameplates and irregular shaped objects.

**ZV23C \$ 274.90** (for EGX-300 shown above)

**ZV20 \$ 274.90** (for EGX-20 shown on website)

**ZV-600C \$ 569.99** (for EGX-400 / 600 page 18)

**Dr. Engrave Software**  
for Windows® 98/WinNT/XP

**Power up with the most remarkable engraving software you'll ever own!**

**FREE with any computerized engraving system purchase!**

- **Automatic Layout Function** - Dr. Engrave features an automatic layout function that allows you to import your database for faster engraving output. Just create your database in CSV file format. Now Dr. Engrave imports your data and optimally lays out your job to fit the material.
- **Uses a wide variety of fonts and clip art** - Dr. Engrave includes specialized vector engraving fonts and also supports Windows TrueType fonts. Create your own design by altering standard shapes or importing a variety of file types such as Windows bitmap data or Vector Art from Roland file formats.
- **In addition to standard fills, Dr. Engrave supports "island fills" • Dr. Engrave easily converts TrueType to "single stroke" fonts**

**EngraveLab Optional Software \$ 1,195.00**

for Windows® 95/98/2000/NT & XP Compatible

- **One of the Industry's most accurate scanning & auto-tracing features**
- **Spell Checker • "Weighted" or "Equal" spacing method included**
- **Ability to view the plate in "finished" mode**

EngraveLab provides the modern engraving shop with creative freedom and an efficient workflow. This powerful design and production software comes loaded with all the right tools for engraving trophies, awards and signs, including 65 import filters, 1100 fonts with WYSIWIG text composition, 100 engraving fonts, a 5000 - piece clipart library, and a variety of automatic fill routines. It can also generate Braille for ADA signage, trace raster-to-vector images, and automatically create single or multiple plates per sheet with a special function for badges.

# Belco Computerized Engraving Machines by Roland

The **EGX PRO 600** and **400** are industrial-sized, advanced benchtop engravers. Using Feed Forward Processing enabled by belt drive technology and digital AC Servo brushless motors on the X, Y and Z axes, they deliver unmatched precision, speed, reliability and energy efficiency for 2D and 3D engraving. The PRO has a 72-watt, 30,000-rpm spindle for high torque and minimum vibration.

Model EGX-600

Model EGX-400

## EGX-600

16" x 24" Table Size

**\$ 11,995.00**

Includes Dr. Engrave Software

## EGX-400

12" x 16" Table Size

**\$ 9,995.00**

Includes Dr. Engrave Software

### Computer Not Included

Optional EngraveLab Software \$ 1,195.00

Optional Vacuum Chip Removal System \$ 699.99

Optional Vacuum Adapter Kit \$ 189.00

(see page 17 for information on above optional items)

Complete specs sheets are downloadable in pdf format from our website [www.bellcoinc.com](http://www.bellcoinc.com)

The **EGX-600/400** benchtop engravers provide heavy duty engraving power, speed and a host of features, making them versatile, easy-to-operate, professional tools. These computerized engravers enable you to produce a wide variety of applications including 3D reliefs for distinctive signs as well as nameplates, awards, trophies, medallions, ADA signage, control panels and much more.

## Superb Quality, Value & Performance for Heavy-Duty Engraving

Included with the EGX-600/400 is a complete suite of engraving software. Dr. Engrave produces high quality engraving utilizing True Type fonts. 3D Engrave allows you to produce 3D reliefs. MODELA Player CAM software reads DXF and STL files created with popular 3D CAD programs. Virtula MODELA enables simulation of finished shapes for previewing on your computer screen before beginning production. A Windows® driver is also included.

## High Speed and Accuracy with DAC-FFP

Feel Forward Processing (FFP) is an advanced controller technology that anticipates tools movement. The industry-first combination of FFP, belt drives and digital AC Servo (DAC) brushless motors on the X,Y and Z axes results in unmatched precision, speed, reliability and energy efficiency. In addition to faster cutting, the high-speed spindle and brushless DC motor produce increased torque with less vibration. Spindle speed can be varied between 8,000 and 30,000 rpm for engraving a wide variety of materials, including wood, urethane foam, plastic, acrylic and light metals such as brass and aluminum.

# Belco Desktop Photo Impact Printing Model MPX-60

by Roland

## MPX-60

**\$ 2,495.00**

### Computer Not Included

This second generation MPX-60 photo impact printer provides an easy, low cost way to personalize jewelry, pendants, tags, awards, nameplates and promotional items. It uses a diamond-tipped stylus to permanently imprint photos, illustrations, logos and text into metals and acrylics.

- The maximum work area is 3.15" x 3.15"

### Updated Dr. Metaza2 Software Included:

Bundled with the MPX-60, Dr. Metaza2 photo-imprinting software allows even first-time users to start editing images and adding text, frames and borders immediately. With the latest version, users can quickly remove backgrounds and rotate images and text. The software imports data filed in JPEG or BMP format and also accepts data from digital cameras and TWAIN\_32-compatible scanners.

- Easy imprinting of photos and text on metals and acrylic
- Able to handle multiple imprinting jobs simultaneously by connecting more than one METAZA to a PC
- Easy-to-use Dr. METAZA2 photo-printing software included to let you start editing and printing immediately after set-up
- Reads image data in JPEG or BMP formats as well as from digital camera or TWAIN-32-compatible scanners
- Compact footprint easily fits on a small counter
- USB port for fast and easy set-up and orientation

## MULTI-MAT

The new, revolutionary ENGRAVING TABLE HOLD DOWN MAT, designed to make your engraving jobs easier and faster! It is a double sided mat which can be applied to virtually any engraving table top to provide a stable, self sticking surface for practically any flat engraving material.

- No more problems with difficult to hold engraving stock
- Perfect for Brass, Aluminum, Flexible Engraving Stock, Acrylic, Phenolic & most other engraving material
- Durable rubber like material with a rigid core that has special holding properties -
- Engraving stock will not move from side to side, but after engraving, it is easily lifted
- No other hold down system is as fast and easy to use
- Can be used over and over again
- Cleans with water and a soft sponge!
- Multi-Mat makes your work easier and saves you money!

**Multi Mat has a self healing feature - small cuts in the surface, should not cause a problem and seem to heal.**

**Double Sided - double the life span of single sided stick down mats**

### Standard Sizes:

# Bellco STIKA Vinyl Lettering & Graphics

by Roland

STIKA is a new peripheral that lets you create unique graphics using your PC. Design letters, logos and cut them out on adhesive vinyl. STIKA can be used for car decoration, models, commercial and public signs, POP displays, labels and more.

Dr. STIKA™ Model SX-8 Graphic Design Cutter  
**\$ 499.00** (specify for Mac or PC)

Dr. STIKA™ Model SX-12 Graphic Design Cutter  
**\$ 699.00** (specify for Mac or PC)

Dr. STIKA PLUS™ Model SX-15 STIKA Graphic Design Cutter Plus  
**\$ 999.00** (specify for Mac or PC)

All models are supplied with Dr. STIKA software, a Windows® 95/XP driver/package that you can use to design your own graphics and also allows you to cut designs from other standard drawing software packages. (note: Bit map graphics are incompatible)

**Making graphics is so easy using DR. STIKA PLUS or other graphics software!**

**STIKA comes with software that lets you create your own personalized graphics - and it's so easy!**

- Capable of precisely cutting Windows' TrueType fonts.
- Use standard font sizes or adjust the font size by clicking and dragging to the desired font size and weight.
- Equipped with a basic design function that can make a variety of shapes including triangles, squares, circles, stars and polygons.
- It can also import bit map files (.bmp) into a design and cut them out with detailed precision.
- Capable of cutting out designs read directly from TWAIN.32 compatible scanners.
- It's easy to set the orientation, angle and size of letters and designs just the way you want them.
- Capable of making larger graphics (50cm wide) by cutting two halves separately. By doing this, STIKA PLUS can cut graphics of up to 19-11/16" (500mm) x 39-5/16" (1000mm).

## THE CUTTING EDGE IN DO-IT-YOURSELF GRAPHICS

**Eye-Catching, simple and fun - STIKA graphics will make your life more colorful!**

# NEW Bellco Magicard RIO Dye Sublimation Printer

**\$ 3,450.00** computer not included

## *The Ultimate Badge/Card Printer*

Works with Your Personal Computer

*Simple Machine...*

*Produces Exceptional Results!*

### **A New, High Speed Card Printer with 16 MB of RAM**

- Prints a full color card complete with security overcoat in about 20 seconds
- Card Size is 2-1/8 x 3-3/8
- Card Thickness 0.015" to 0.063"
- Affordable Price
- New drop-in dye film loading (no threading)
- Comprehensive 12 month standard warranty plus (in North America and EEC only), two years FREE Ultra Cover Plus total printhead cover and loaner service
- Fast, versatile, Windows '95, 98 2nd Ed. & Windows XP drivers supplied with every printer
- Exceptional print quality and rugged reliability
- Prints from any windows based graphics program
- Image will not rub off

---

## **You Asked... We Listened!**

**You said "FASTER" ...** The Rio prints a full color image in 20 seconds, including download. That's more than twice the speed of the competition! Up to 180 blanks per hour.

**You said "A BETTER WARRANTY" ...** The Rio comes standard with a 12 month comprehensive warranty with two years on print head and free loaner repair service. No exclusions.

**You said "DON'T MAKE ME LEARN MORE SOFTWARE" ...** The Rio is simply a printer. Design and print from CorelDraw or any other Windows Graphics software. There is no learning curve, use whatever you are comfortable with.

**You said "MAKE IT EASY" ...** Easy use is ensured by the Rio's front access controls, drop-in dye film loading, open access card feeder and stacker, and the simplest ever T-card cleaning system.

**You said "MAKE IT RELIABLE" ...** The Rio is built tough to withstand both high and low throughput applications

**You said "MAKE IT AFFORDABLE" ...** Low price - Just \$ 3,450.00 - VISA / MasterCard / AMEX accepted - Just plug it into your computer and print!

# Etchall Glass Etching Creme

## Etchall Etching Creme

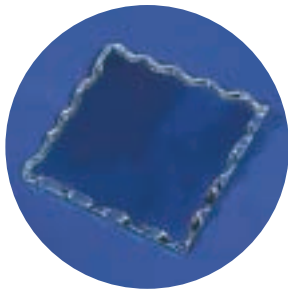

Reusable etching products produce permanent etched finishes on glass, mirror, ceramic, porcelain, slate & sandblasted objects.

Create personalized gifts, decorate picture frames, etch champagne & wine bottles as wedding mementos.

- 4 oz. Etching Creme ..... \$ 33.00
- 16 oz. Etching Creme..... \$ 50.00
- 32 oz. Etching Creme..... \$ 88.00
- 4 oz. Etchall Resist Gel..... \$ 17.00
- Accessory Tip Kit ..... \$ 35.00
- Glass Etching Techniques Book (16 pages) \$ 19.95

- These Items Recommended To Start Glass Etching In House

• **PURCHASE STARTER SET - ITEMS MARKED ABOVE FOR ONLY \$ 105.00**

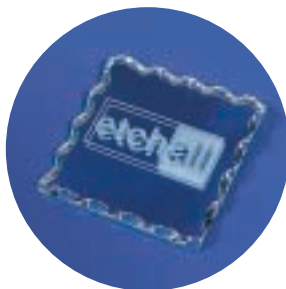

**STEP #1** - Clean glass or mirror surface. Dry with a lint-free paper towel or cloth. Apply resist (vinyl, tape, etc.) for the design, or logo on the object you wish to etch. Areas left exposed will be etched by the creme.

**STEP #2** - Apply a heavy coat of Etching Creme onto an area of the stencil where the glass is NOT exposed (pouring the creme directly onto the glass will cause irregular etching). Using a squeegee, pull the creme over the entire area to be etched all at once (as if you are icing a cake). Do not use a brush - this will cause streaking.

**STEP #3** - Leave creme on design for 15 minutes. After time has elapsed, use the squeegee to return the majority of creme to the etchall container to be re-used.

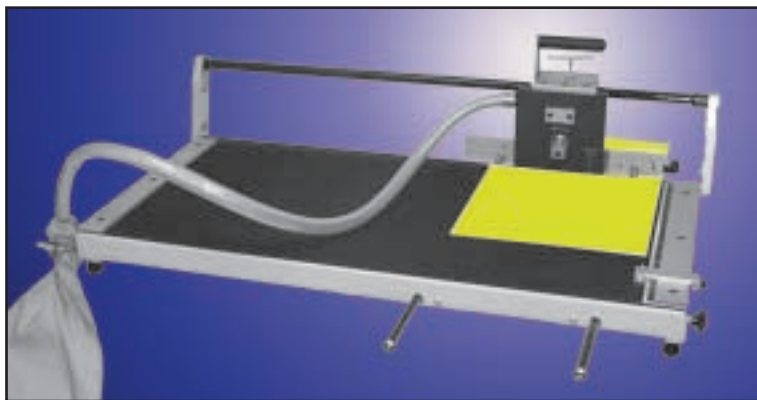

**STEP #4** - Rinse etched surface to remove any remaining creme. Remove stencil, wash & dry glass and your design is permanently etched!

Etching provides a permanent, white, opaque finish to the glass or mirror. It will not wash off or rub off. Objects etched with Etching Creme are dishwasher-safe. Etchall Etching Creme is also stencil-friendly... it's unique formula will not deteriorate your stencil.

## Bellco Circular Safety Saw #250-VA10

**\$ 2,095.00**

The Bellco Safety Saw is ideal for safe, repeat, accurate cutting of many types of sheet materials up to 1/4" thick, including :

- Plastic Engraving Stock, including ABS
- Clear Acrylics      • Phenolics
- Formica              • Wood              • Rubber
- Matte Board      • Nylon              • PVC
- Aluminum & Brass along with other non-ferrous metals (up to .157")

note: cutting metals can dull your blade faster than cutting plastics

### One of the best investments any engraving, trophy or sign company can make!

Designed with safety in mind, even the inexperienced operator can use this equipment easily and safely. Unlike table saws or radial arm saws, this saw blade is completely enclosed! Most chips are cleanly deposited into the collection bag via the chip collector attachment, which comes standard with each saw.

#### SPECIFICATIONS

Maximum Length of cut is 24.5"      • Table Size 27-1/2" x 15"      • Electric Motor 110V, 350 Watt, 15,000 RPM  
Weight: 50 lbs.      • Packing Size: 36" x 22" x 10"

Replacement Blade For Saw Above  
#VC36T ..... \$ 180.00  
36 tooth, carbide tipped 4.75" dia.

Carbide Table Saw Blade  
#250-144 ..... \$ 135.00  
8" dia. .105" kerf, 5/8" bore, 64 teeth

Replacement Motor ..... \$ 220.00  
Resharpening of Blade ..... \$ 45.00

Saw Blade Lubricant #250-176 ..... \$ 5.00 ea.  
minimizes burr - enables blade to last longer  
For Table Saw Blade Only

## Table Shear - for Plastic or Metal

**\$ 395.00**

### Plastic Shear #290-009

Cuts Plastic up to .0625 thick

Ideal for cutting badges, nameplates, strips, panels, film backed polymer - not designed for metal.

Cuts 12" x any length - clean cut - safety guard included

**Replacement Blades & Parts:**  
Top for Plastic ..... \$ 65.00  
Top for Metal ..... \$ 65.00  
Bottom Blade ..... \$ 55.00  
Replacement Scale \$ 38.00  
Replacement Guard \$ 20.00

### Metal Shear #290-007

Cuts Brass up to .025 thick & Aluminum up to .040 thick

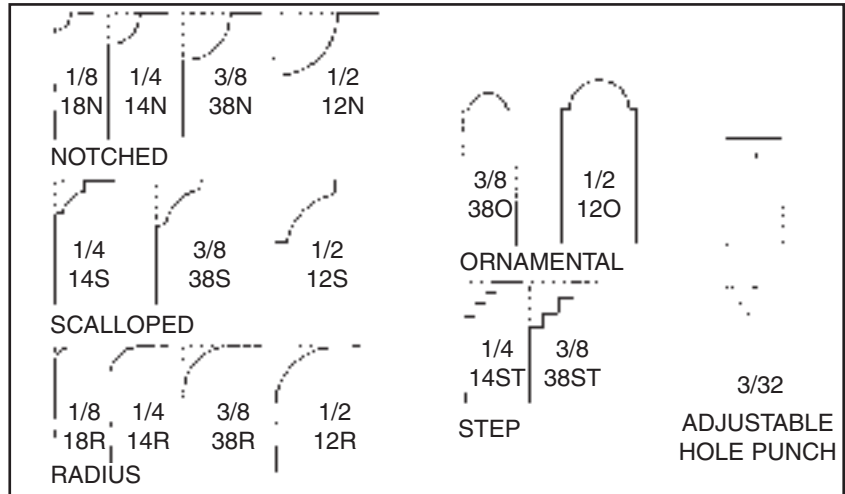

Ideal for cutting Trophy Brass, Aluminum & A.D.A. Aluminum Backed Photopolymer

Cuts 12" x any length - clean cut - safety guard included

## Corner Mate

Dress the Corners of Your Plate, With The Bellco Corner Mate!

Cuts Clean • No Burrs • Rounds, Notches, Scallops or Hole Punches Corners • Heavy Duty Base Capacity .020 brass, .025 aluminum, .020 steel & .0625 plastic

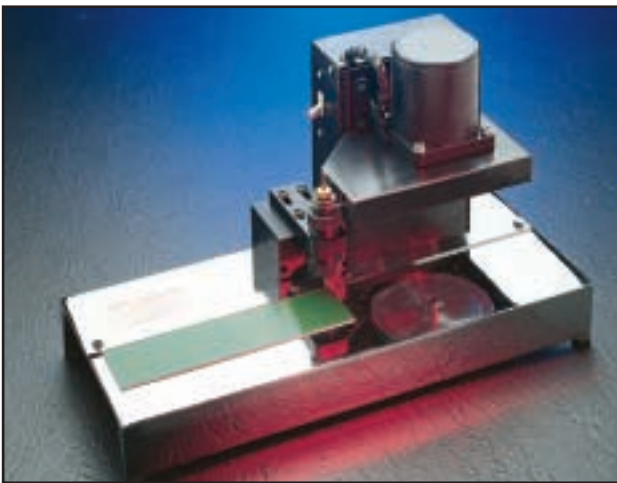

#590-272

Base \$ 120.00

Cutting Units \$ 115.00 each

## KB-600 Beveler

\$795.00

Frame the Edges of Your Nameplates with a Quality, Smooth Finished Edge by Using the Bellco Beveler

Bevels Material up to 1/4" Thick

Table Size 4" x 16-1/2"

Long Lasting Industrial Quality Beveler  
 60w Motor - **Quiet Operation**

## Bellco Acrylic Bender #250-800

\$ 299.00

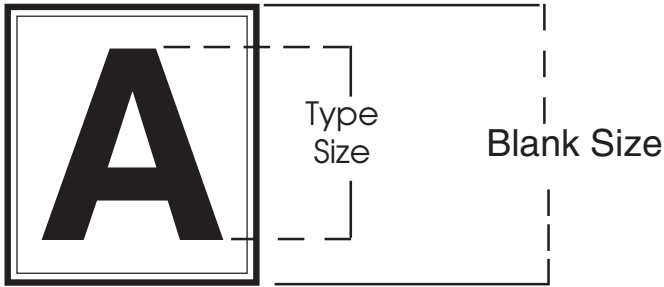

This bending machine is perfect to use for bending plastic engraving materials and acrylic up to 1/4" thick  
 Bends plastic to make tent signs, foldover pocket badges, easels, etc.

Specifications: 34" effective heating area-  
 Thermostat controlled - adjustable  
 magnetic backstop - On/Off Switch &  
 pilot light. Approx. Shipping Weight 13 lbs.

STRIP HEATER: Element Only - Build your own  
 Instructions included for assembly  
 #250-175 ..... \$ 55.00
